

Poinsettia Care Sheet

Thank you for supporting Scout Troop 78 Alameda

1. **Handling:** Be careful in handling plants. They can break easily and are very fragile.
2. **Unwrapping:** Carefully remove protective sleeve around the poinsettia. Take care not to snag and of the branches and/or leaves when de-sleeving
3. **Temperatures:** Recommend 65 to 68 degrees, household temperatures. Not too cold or warm. Do not leave in garage, car, or outside areas. Keep away from drafts and heater vents.
4. **Watering:** Water the plants as needed. Keep soil moist. Drain excess water. Never let plants sit in water. Check the outer pot cover to insure excess water is removed.
